Now CBS wins awards for icing, too

WHEN used to getting medals and medals for your programs—that's our regular business. But this time we're getting awards for promotions and publicity support we give our clients' programs. In Billboard's Award Radio Recognition Survey, CBS was first among all networks—and CBS was first again in the Billboard Publicity Survey.

What Billboard calls "explanation," however, is all program promotion—a carefully planned campaign to stimulate local interest in sponsored programs. It's just one of the services that CBS stations voluntarily give to clients—something not called for in each case—just using an idea.

All of which indicates that there's much more to our network than station "ratings" and "audience"—that our clients get much more than tone.

However, five individual Billboard awards were made to CBS stations:

WEEA, Boston, first place among regional stations for program explanation, second place in KLB, Beaver

BOX, Los Angeles, first place for outstanding explanation also at the year.

WUPA, Grand Rapids, MI, first place for outstanding explanation in the class of city stations.

Ex-Employee Flings Wage and Hour Suit At Decca in Philly

PHILADELPHIA, May 15.—While still in the suit against the Decca Records Corp., which he brought in Philadelphia, Pa., last week, a former Decca Records Corp. employee has filed a wage and hour suit against the company in the U.S. District Court in Philadelphia. The suit, filed by the former employee, who is now unemployed, alleges that the company failed to pay him for overtime work and for vacation pay. The suit also alleges that the company failed to pay him for the time he spent in the company's office during his employment.

The former employee, who is now unemployed, alleges that the company failed to pay him for overtime work and for vacation pay. The suit also alleges that the company failed to pay him for the time he spent in the company's office during his employment. Peace Offensive

Every loyal American should make it his business this summer to help effect the peace offensive which the Axis powers already seem to have under way. Every American is being called upon to do many things to help win the war, but he can help fight the peace offensive without making any great sacrifices.

The first thing, of course, is not to be taken in by the peace propaganda. One warning has been given to every body that propaganda plays a major part in this present war and it will continue to be a powerful weapon for the Axis powers. It is likely that the peace propaganda campaign is the greatest single play that the enemy can make this summer, and for that reason we all need to be on guard against it personally.

The peace propaganda originating with the Axis powers is well calculated to give people in the democracies an overdose of optimism. Already people are talking that the war will be over in 60 days, or that it will end before the year is over, and so on. The peace talk was evidently started to give people just that kind of over-confidence while the Axis powers make ready for their heaviest military drives this summer.

It is natural to hope that the war will be over this year, and yet it is dangerous to be lulled by peace propaganda into over-confidence. If Russia and England held against any offensive move by Hitler this summer, then it will be safe to feel that victory is in sight for the United Nations. But even when Hitler is defeated, it should be kept in mind that the Japs have already made such gains that it will take considerable fighting to put them back in their place. The sensible view to take is that there will be a lot of fighting to do yet.

The peace offensive is also intended to slow up American production of war materials. The United States is really just getting started on turning out war materials in full swing, and that start is beginning to show up on all battle fronts. If the Axis powers see that any propaganda move that will slow up that production, they will have gained a real victory. The peace offensive is very dangerous to the Allies from the very fact that it may slow up our production pace. In order to maintain our production pace,

it will be especially for every citizen to make a lot of sacrifices. But if we become over-confident, it is to be expected there will be a general letting down all along the line.

The American public is upset in many ways at the present time, due to the many shifts and changes that have been made recently in order to get the production of war materials going at a high rate. At such times there is naturally a lot of complaining, and a good many people get an uneven break in the changes that are made. The Axis powers know this all too well; they know the Americans and

English habit of complaining and complaining leaders, and their peace campaign is well timed to capitalize on this.

America's greatest production machine is being slowed by the threat of the east. (Cartoon from The Chicago Tribune.)

The most dangerous point about the peace offensive is that it will again arouse those with pacifist or isolationist hopes, so that the democratic nations will again be subjected to division and strife right at home. The peace offensive is well calculated to appeal to the pacifist opposition in the United States, Canada and England, and to draw some up all the obstacles that the political parties can put in the way of these leaders now in office. The Axis powers are not idle when it comes to polling their finger on the real danger spot in the United States and England. They

know full well that too many people still love their party more than their country, and this peace offensive is intended to stir up as much party strife as possible.

Unfortunately, the peace offensive is also well aimed at millions of people in the churches who have dreams of a world at peace and would almost be willing to give Hitler what he wants for his promise not to disturb them any more.

The militarists stepped the line before when they wanted to. Probably 50 per cent of us who were in France felt it would be necessary to fight again. And even enough, in our helmets, the militarists are at it again. There is only one peace this time—complete defeat of the Axis powers and the swift execution of thousands of the leaders in those countries that have a militarist cult.

We as Americans are being called upon to make many sacrifices to help win the war. We can help fight the peace offensive without much sacrifice. Don't be taken in by it and try to keep your neighbor from being taken in by it.

Milwaukee Gets License By Big Council Majority

Vote of 18 to 5 Council vote—license they are ready by June 1—no demand for \$5,000 license—expected \$200,000 revenue for city

MILWAUKEE, May 16.—The long newspaper struggle against the city's plan to license newsboys and news carriers has ended in a heavy vote on May 14, when the city council voted 18 to 5 to grant a license to newsboys and news carriers. The vote was carried on largely by the newsboys and news carriers, who had previously been denied by a vote of 10 to 10 in the city council. The city council also voted to license newsboys and news carriers for a period of one year, and to license newsboys and news carriers for a period of one year.

Portland, Maine, has been awarded a license by the Federal Bureau of Investigation (FBI) to use the name "National" in its advertising campaign for its new line of National products. The license is valid for a period of one year.

United States National Company (USNC) has been awarded a license by the Federal Bureau of Investigation (FBI) to use the name "National" in its advertising campaign for its new line of National products. The license is valid for a period of one year.

Baltimore Firms Report Summer Prospects Good

BALTIMORE, May 16.—The early outlook of many business firms in Baltimore is optimistic, and many are expected to report a good summer business. The outlook is based on the fact that the city's economy is strong, and many firms are expected to report a good summer business.

GOOD USED MACHINES

REPAIR SERVICE

PARTS AND SUPPLIES

**To Build Stronger Ties
for Jobbers and Distributors With Their Operator-Customers**

The plants of Coin Machine Manufacturers are now being converted 100% in war work. This action places greater emphasis upon keeping present machines in working condition—a tremendous job to be sure, but one that will be eagerly handled by the Industry's nationwide system of Jobbers and Distributors. Many firms have already established complete used games, repair and parts services. It is up to the Distributors and Jobbers to keep the industry going—to protect and prolong the earning power of every machine. Their future and that of their operator-customers depends upon it.

Now is the time to make every operator in your immediate and surrounding territory acquainted with your stock on hand, repair facilities and your ability to furnish parts and supplies. You can do this effectively and at very low cost by advertising in *The Billboard*.

CHRYSLER, says, "We're not in the business of making money; we're in the business of making cars." The company's motto is "We're not in the business of making money; we're in the business of making cars."

It has been assumed that because the two types of aggression are different, they must have different evolutionary functions. The idea that the two types of aggression have different evolutionary functions is a complex idea.

Complete Service
At National Coin

CHICAGO, May 2.—Harry J. Jones, chief manager of the National City Bank, said today that the bank's operations had been "greatly" affected by the strike of the city's telephone workers, but that the bank's operations were "not" seriously affected.

As a result, business opportunities are plentiful, and the company is looking for new and interesting opportunities on the part of its customers. "Business doesn't 'go down' when you're out of the service area," says Johnson. "We have a national telephone toll-free number for emergency service. Customers can call and we'll send someone to the site. Business has been well up to date since then. In 1980, sales were \$10 million, and this year we're looking at \$15 million. We're growing a lot of our business in the service area. We're looking at the service area as a new business. It's been a lot of work, but it's been a lot of work, and it's been a lot of work."

Company chief Joe Baccante is confident that the firm has the talent to succeed. "One of the great things about the Model Group is that there is no long-term, fixed cost associated with going overseas," he says. "We can hire a complete operation in a foreign country, or we can hire a number of people to handle specific projects. In fact, the greatest flexibility comes in support; we evaluate a site first, then we determine whether or not we are able to supply services with sufficient profitability." Baccante is confident that the firm will continue to grow.

Badger Novelty Co.
Ready for Business

MEMPHIS, May 9.—"We are having a complete new making line of photographs and commercial glass prints in our standard 'instantaneous' size," says Carl Vogel, executive of Kodak Photo.

"This party department is as complex as dealing with nonfiction 400 (a-h)!" Many groups maintain through an on-line web site to help operators quickly recognize their business revenue book. "You're buying" command the page.

"How were they ever before the picture of a business owner, judge to which side the customer and his or her interest. That is what we need to do it and this something to help operators with their equipment and service to the customer."

IT WAS ALRIGHT THEN...

Ed used to
GO HERE

I used to service
THIS PLACE
JUST ACROSS THE STREET

...But that was before Pearl Harbor...

That was when Ed and I were competitors . . . but, as I said before . . . Ed and I got together and we really feel good about helping Uncle Sam . . . and at the same time helping ourselves stay in business. Ya know, it kinda makes me laugh now when I think of it. When I first put the deal up to Ed he

said to me, "Tommy, how the h—ll are you and I ever going to get together on anything? Sure, you're G. K., but business is different!"

Anyway, the important thing is, Ed still owns his business and I own mine . . . and this combination has resulted

in a saving on manpower, materials and service that Uncle Sam is now using to great advantage. Heck! When we went over the whole thing we found that all our guys were doing the same routes . . . in many instances, right next door to each other! Now one truck does the work more efficiently than two used to do . . . one collector, instead of three . . . and materials that Ed couldn't use, I could use and vice-versa. And the best part of it all is, location owners are completely satisfied with the service. I think Ed and I have hit on a practical idea here that music operators all over the country could get together on. Uncle Sam needs the manpower and materials . . . music is essential to the morale of Our Nation—MUSIC OPERATORS CAN HELP DO BOTH! And don't forget, guys . . . let's buy and sell more of those "knockout drops" (war bonds) for the boys on the other side of "the drinks"!
